DEALERS IN

## American and Foreign Granite and Marble Monuments.

We have one of the largest and best equipped shops in Missouri together with the latest improved hoisting machinery, thus enabling us to handle anything from the smallest to the largest of monuments with ease and dispatch.

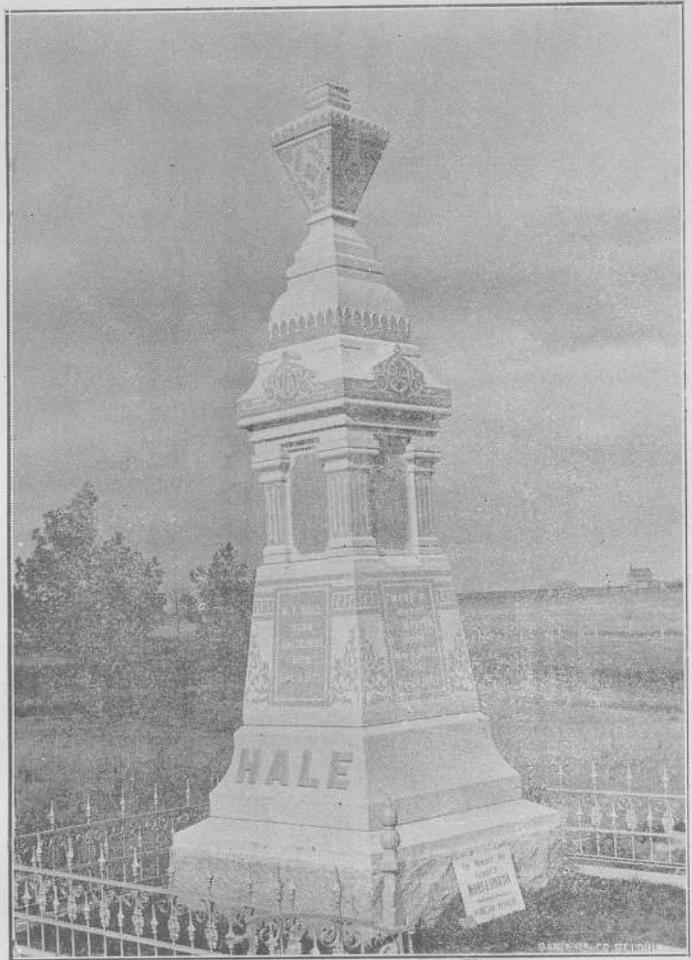

### A LARGE ASSORTMENT OF FINISHED MONUMENTS

Both Granite and Marble.

ALWAYS KEPT IN STOCK AT OUR WORKS.

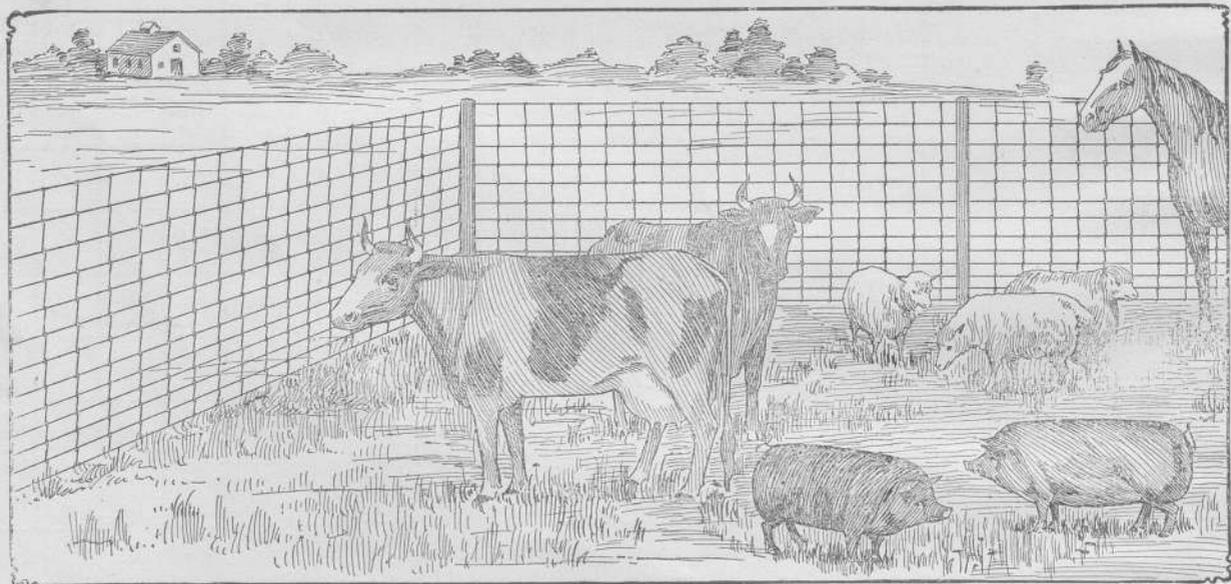

We ask those needing monumental work to examine our workmanship and prices before placing orders elsewhere.

We are willing to meet all honest competition and will guarantee our work to be of the very best quality. Correspondence solicited.

The above cut represents a monument in the Hamilton cemetery and shows the class of work we are prepared to handle.

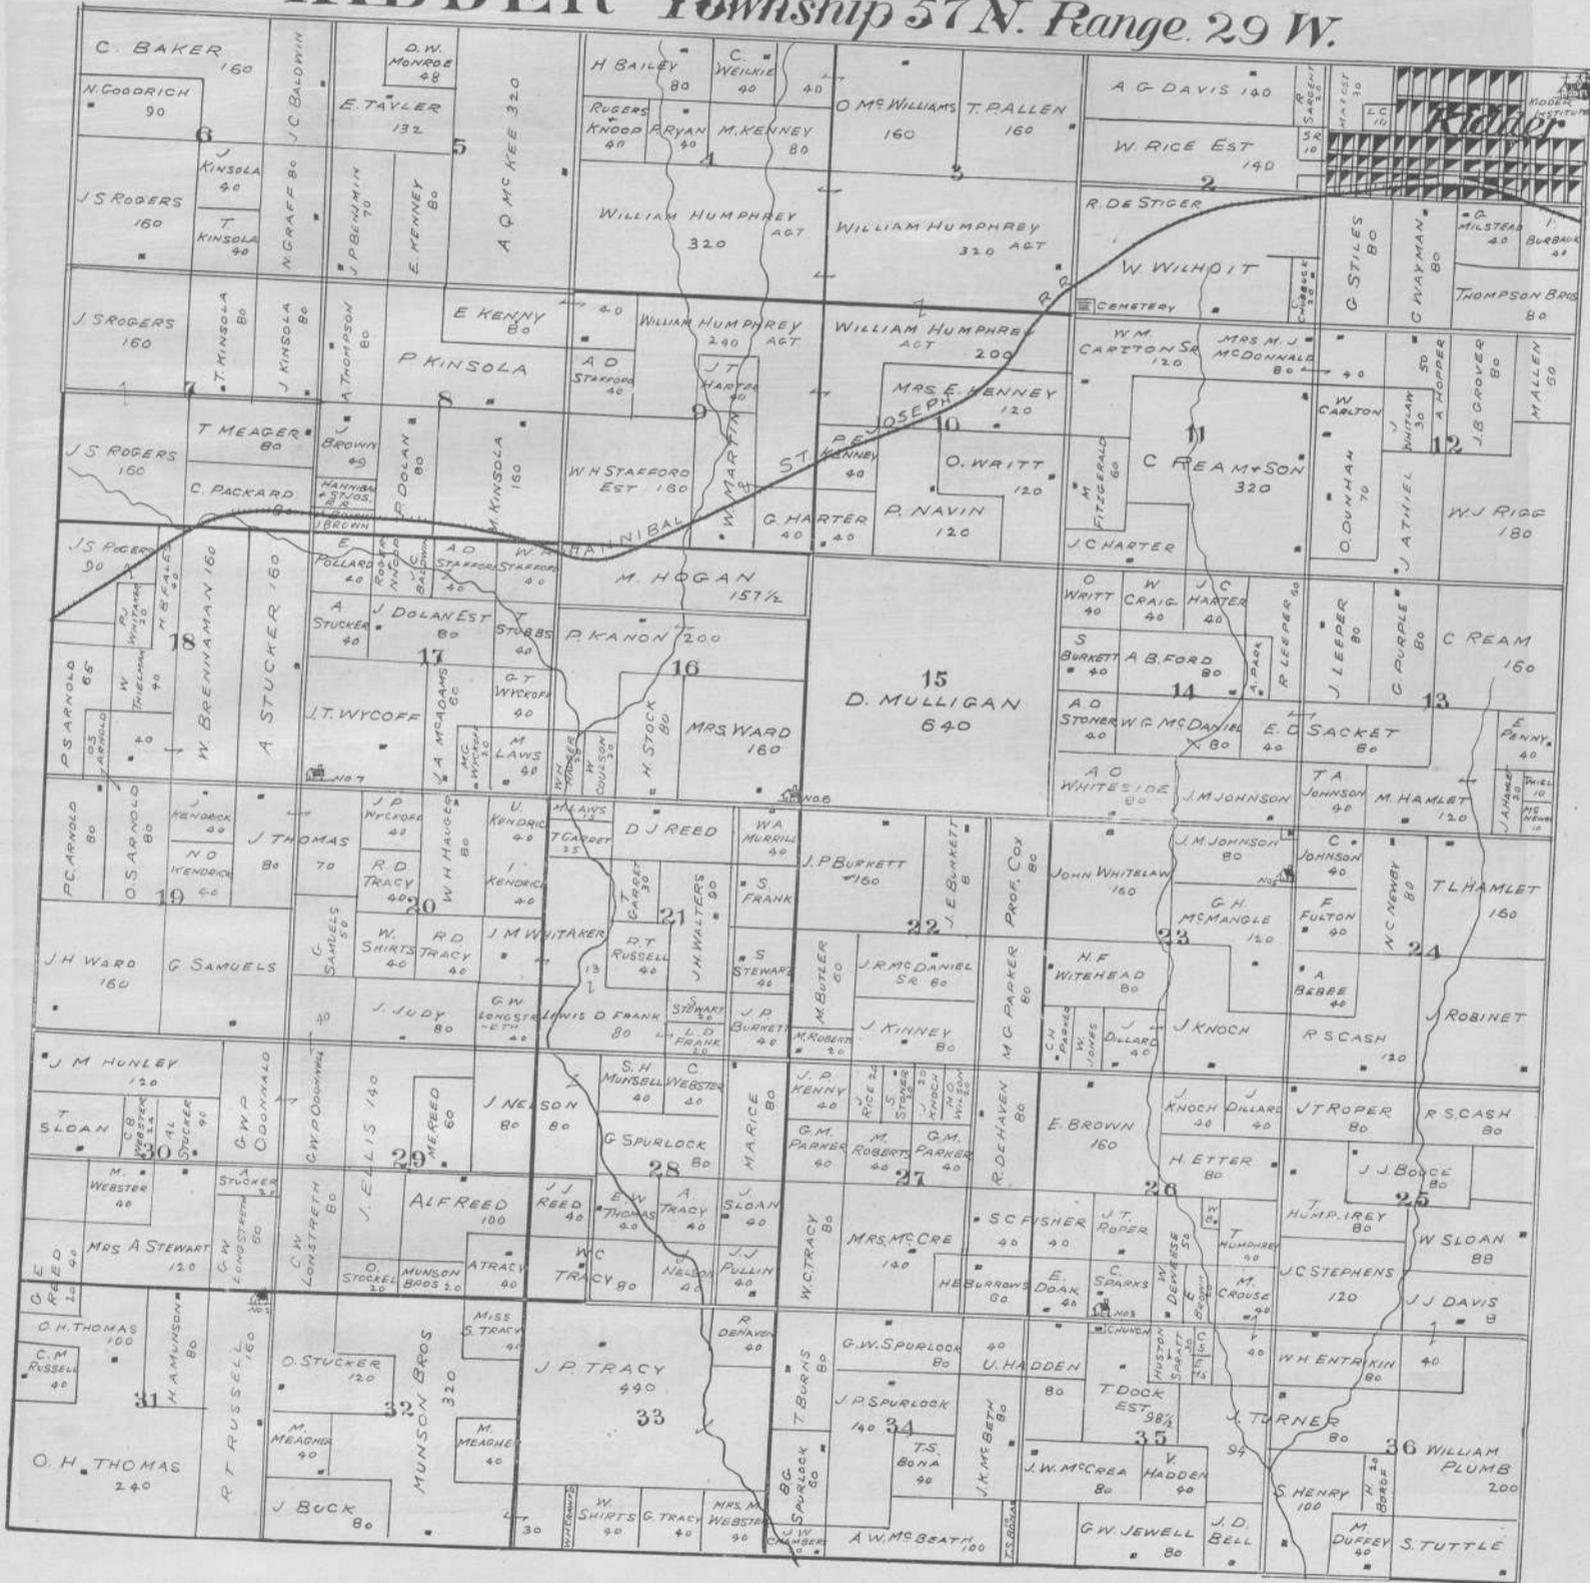

On facts, and not wind, state we the good qualities of our double wire twisted cable Field and Hog Fence, manufactured by the DeKalb Fence Co., DeKalb Ill., and sold at the lowest living prices, by the undersigned, in the Frank Clark building, on Main street, south of railroad, Hamilton.

See the nice and evenly distributed wire in the above fence cut. It represents a fence 4 feet, 2 inches high, has 13 horizontal double wire and twisted cables in it, giving a tested wire cable strength of 12,996 pounds to every foot fence length. To keep animals from spreading the cables apart, we connect the cables by interlocking cross stay-wires every 6 inches, and the points of connection are flexible so as to allow the fence to be adjusted to any uneven or hilly ground whatever without buckling between posts. No Wire Fence Made, Having a Single Wire for Cable, and Cross Stay Wires Coiled Twice or Three Times Around Such Cable at the Connecting Points, Will Do the Same. Our Company use none but the best galvanized steel wire in all fencing of its make, numerating some 15 different kinds and styles always kept in store. Seeing is believing, come and see. We make fences that turn small pigs chickens and rabbits, also fences that turn all other animals raised on the farm, besides making ornamental fences, for front yards, lawns, parks and cemeteries. For further particulars address the Company.

## J. C. TRACY & CO.

Hamilton, Mo.

## MATHEMATICALLY CORRECT.

### A PROBLEM OF TODAY.

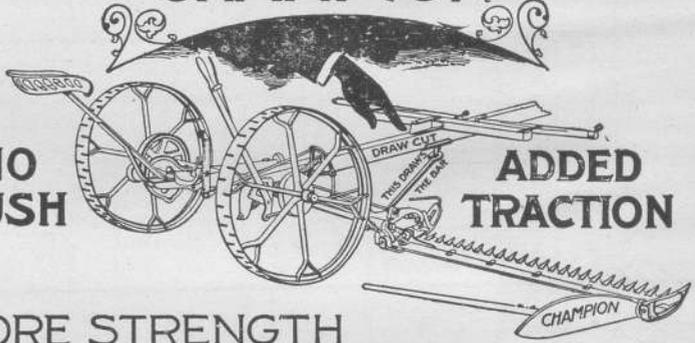

AXIOM I. The farmer and the implement dealer are dependent each upon the other.

AXIOM II. The implement dealer prospers in proportion to the quality of his goods and the price at which he sells them.

THEOREM X. J. W. Martin (successor to Graer & Martin) President Caldwell County S. S. Association, Hamilton, Mo., carries the largest stock and the most complete assortment of Agricultural Implements, made up of the very best lines on the market to be found in the county. PROVE that it pays the farmer to buy his implements at Martin's.

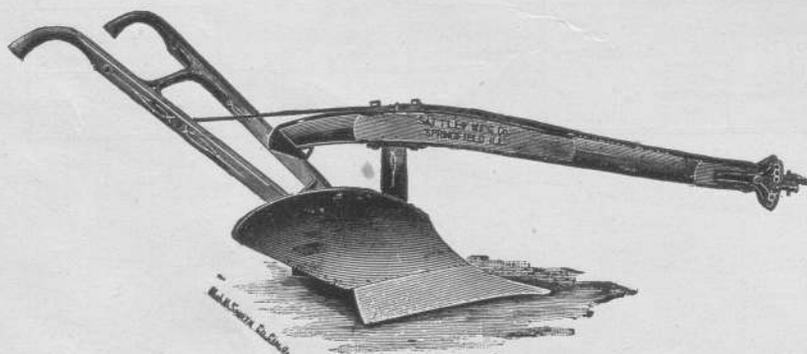

DEMONSTRATION. 1st. The farmer knows a good thing when he sees it. He knows that the McCormick Champion Binders and Mowers are the best in the world. He knows that the Brown Cultivator has no equal, that the Parlin &

**IT DRAWS THE BAR CHAMPION**

**NO PUSH**      **ADDED TRACTION**

**MORE STRENGTH**      **LESS BREAKAGE**

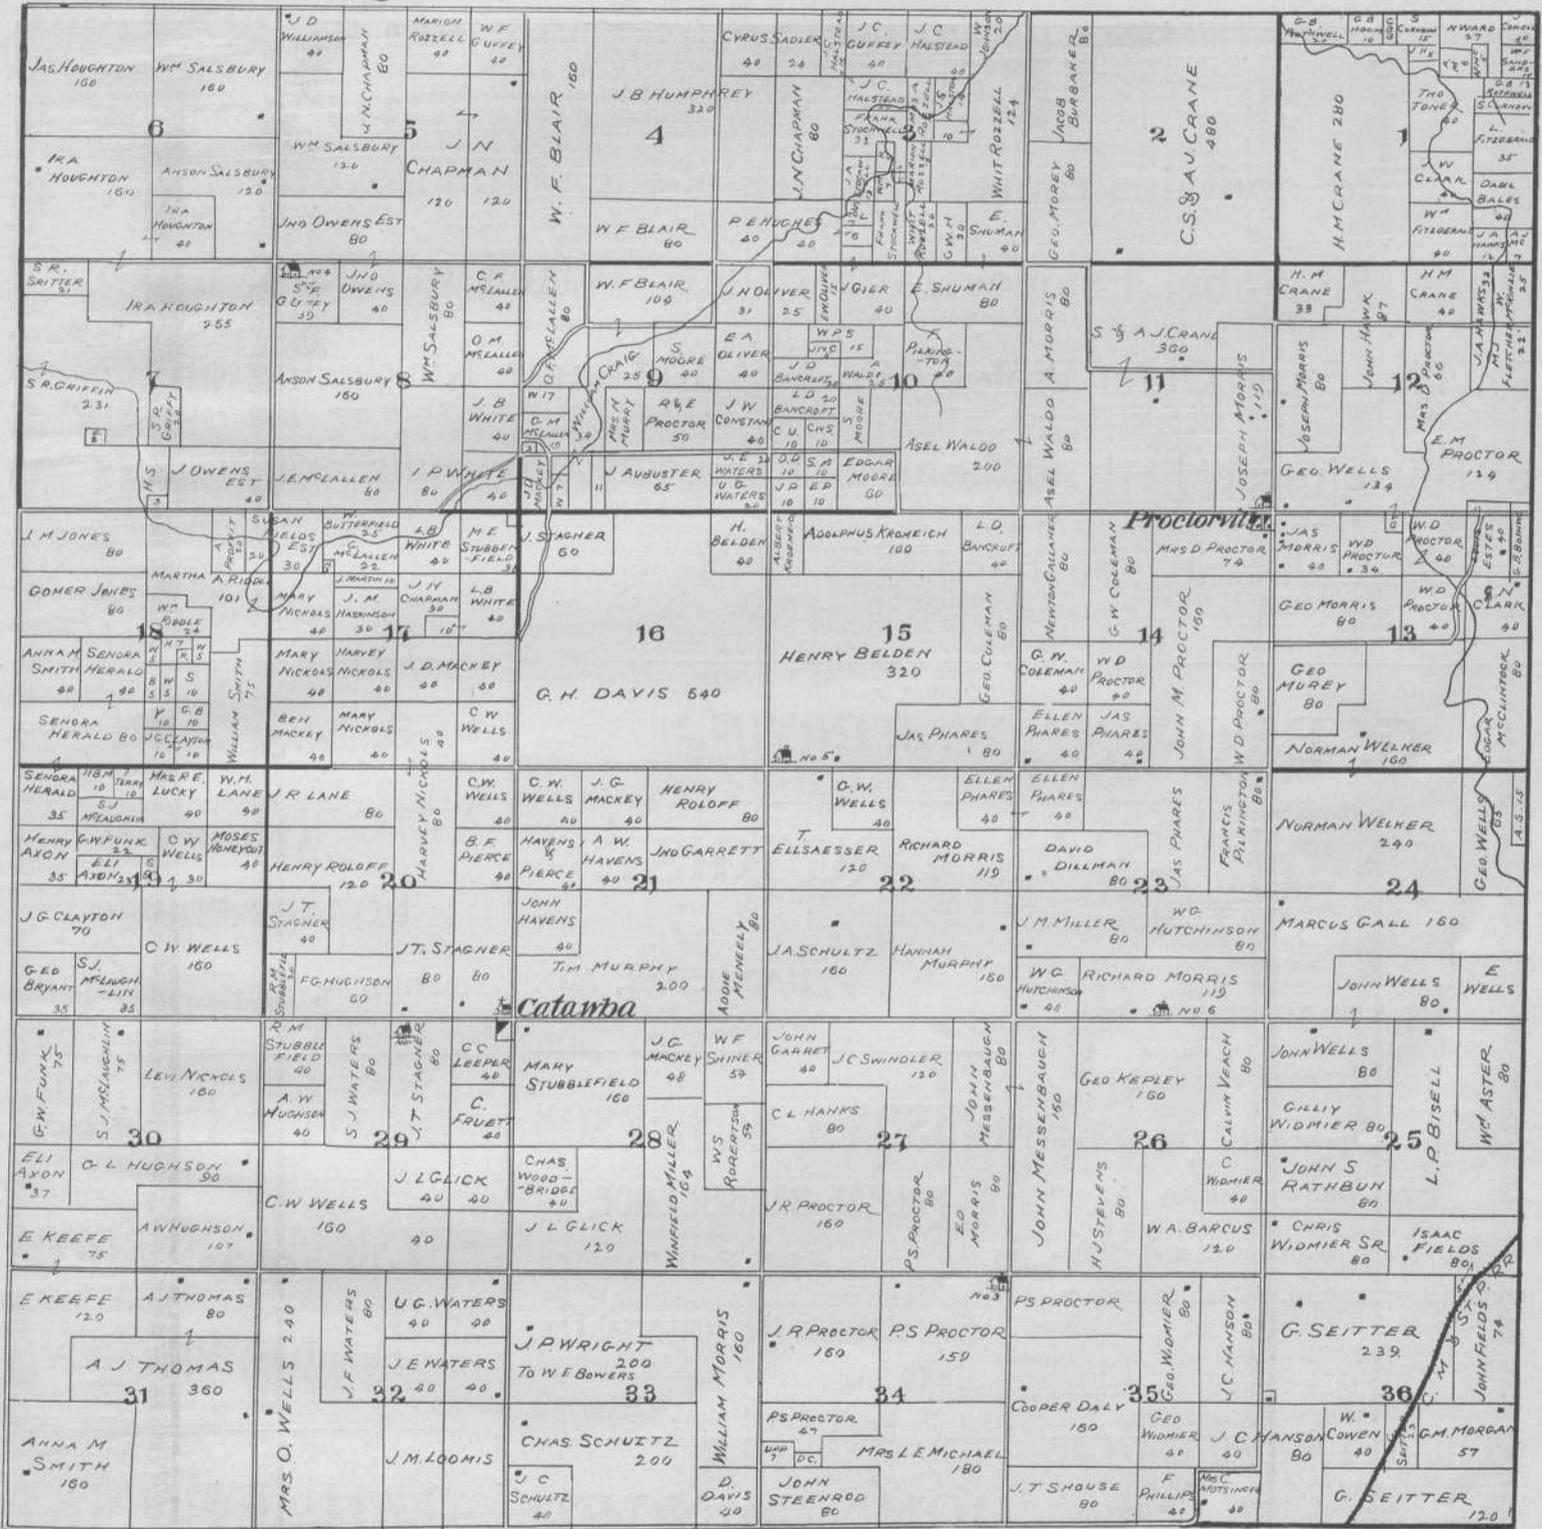

Orendorff Co. and the Sattley Manufacturing Co's. goods cannot be beat. 2d. Farmers tell the truth, and when three-fourths of the farmers in the vicinity of Hamilton say that they get better bargains in implements at Martin's it cannot be denied. 3d. Martin carries a full assortment of repairs, attachments and extras on hand. 4th. His guarantee is liberal. 5th. He sells on time. 6th. He allows a liberal discount for cash. 7th. He will exchange anything in the Implement line for stock or grain.

THEREFORE It pays the farmer to buy his Implements of

E.J. DUDLEY

# KINGSTON

The County Seat

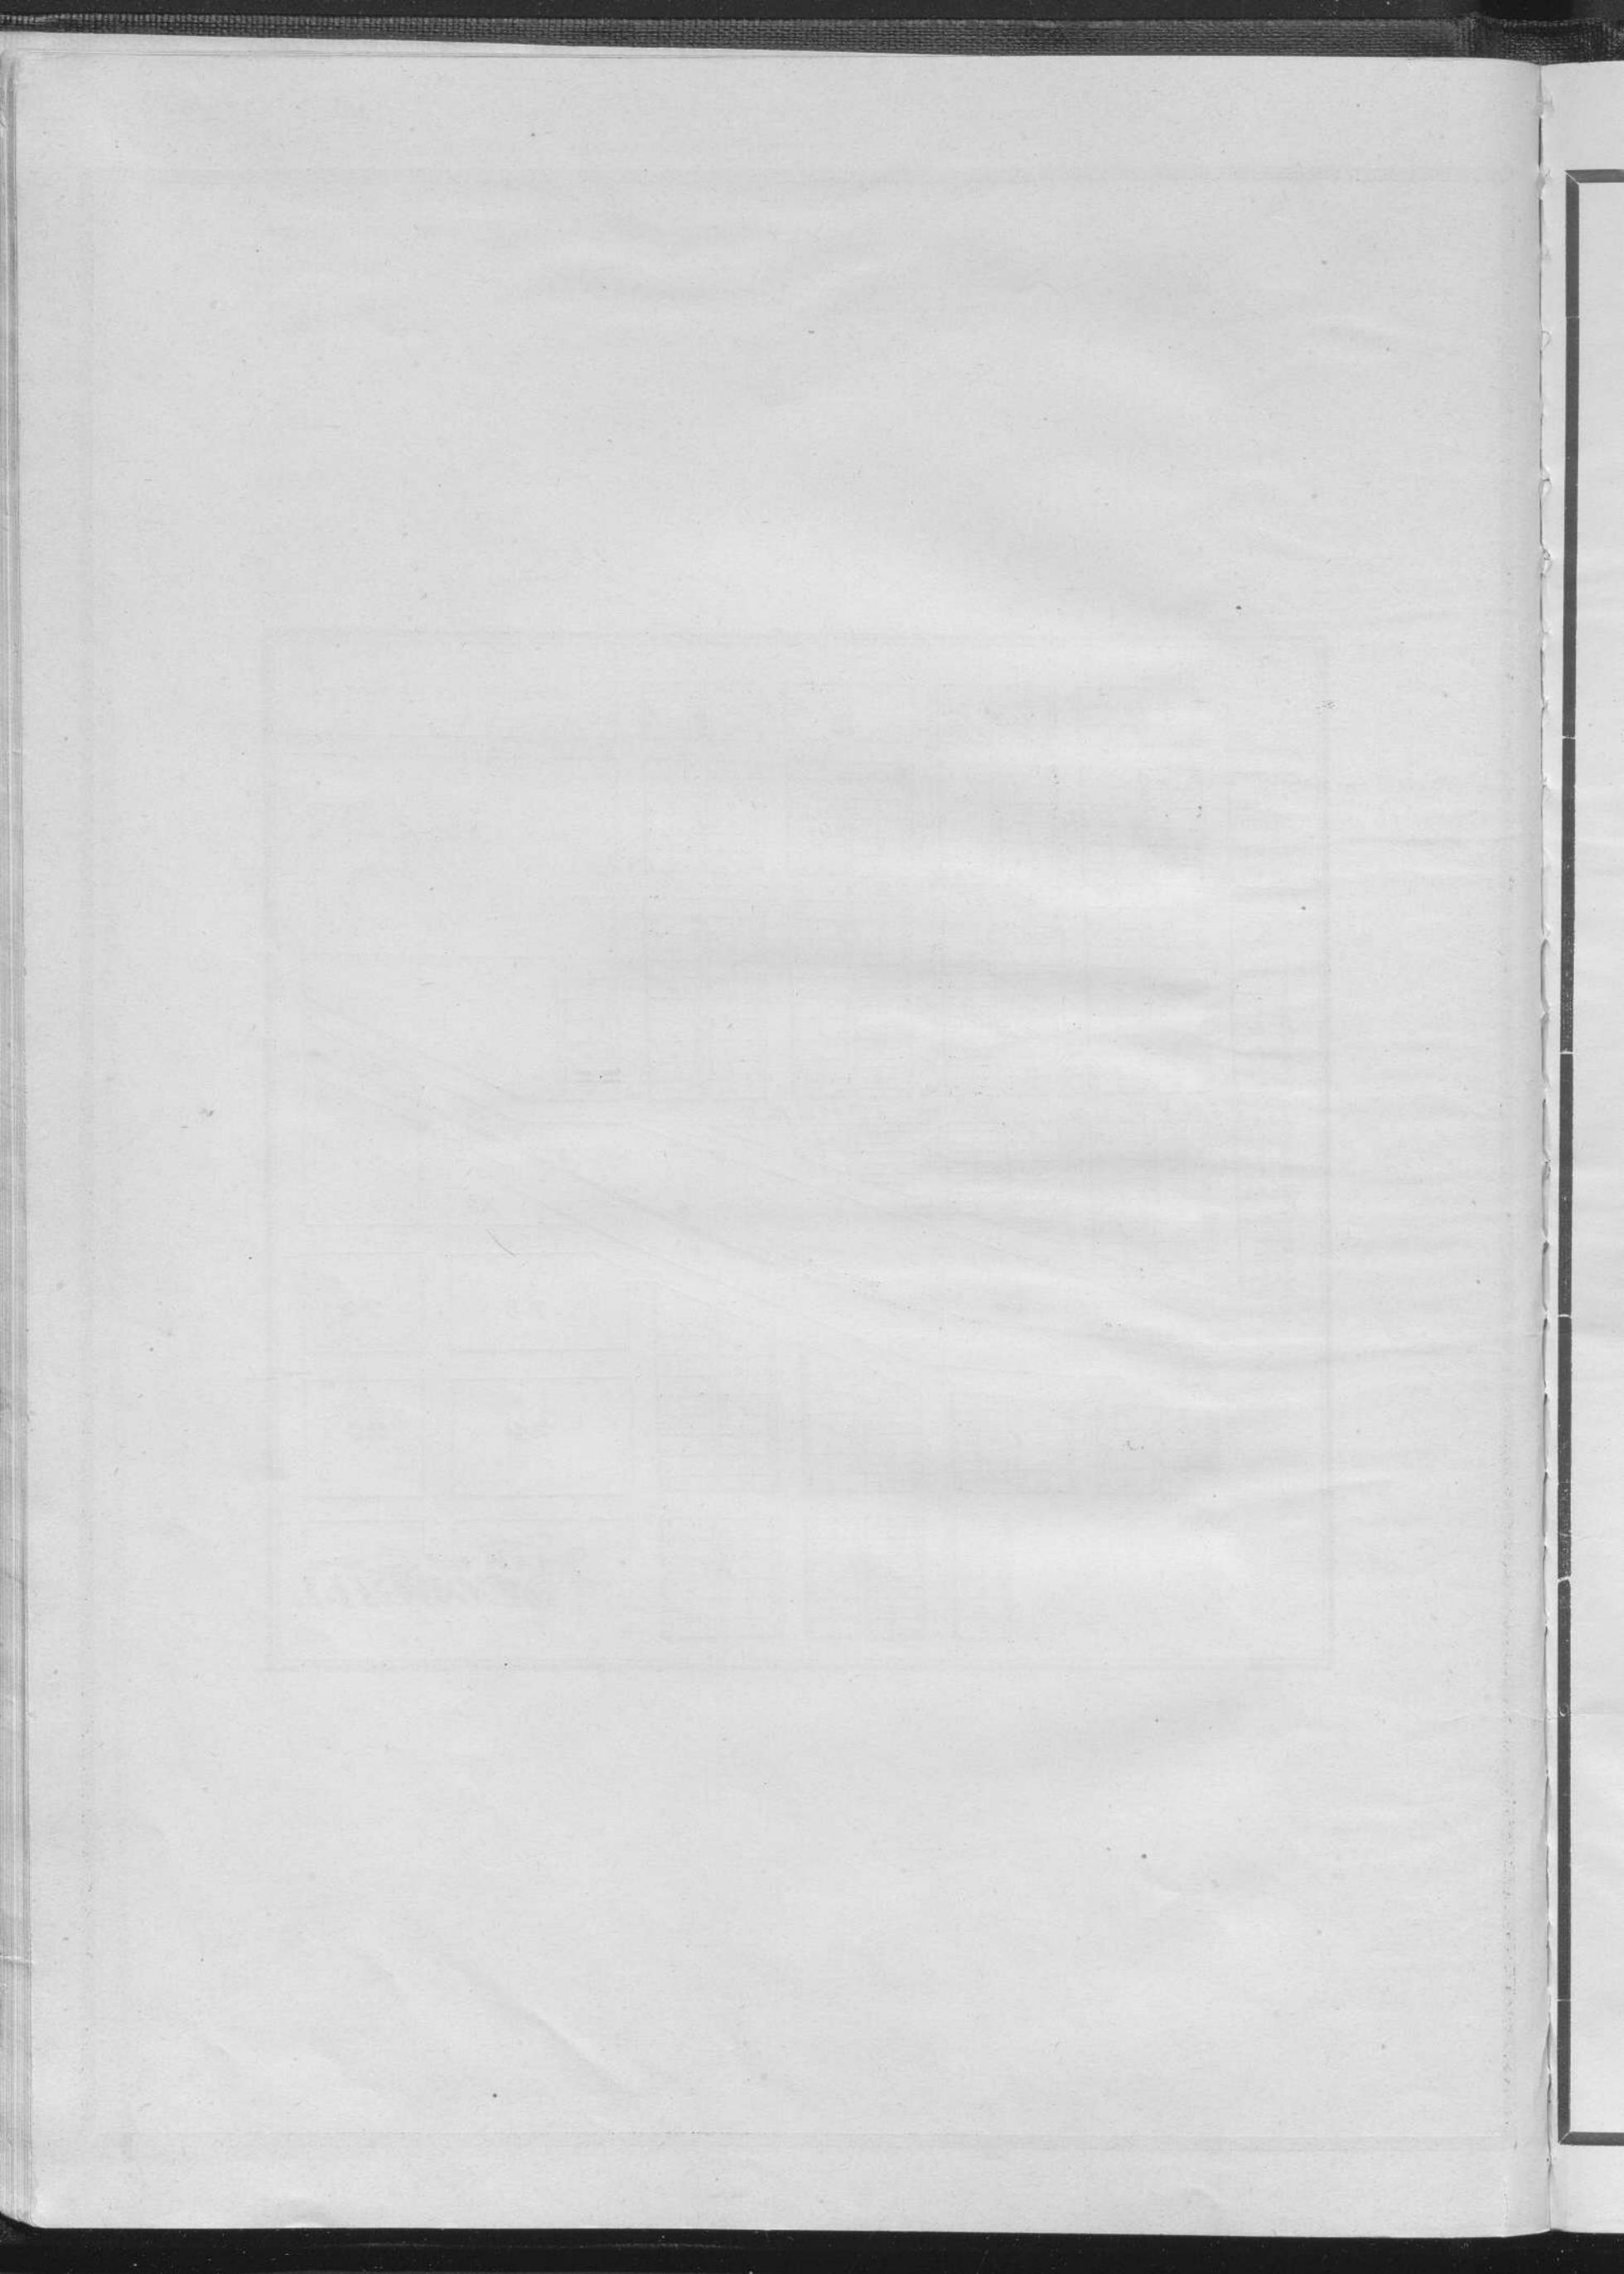

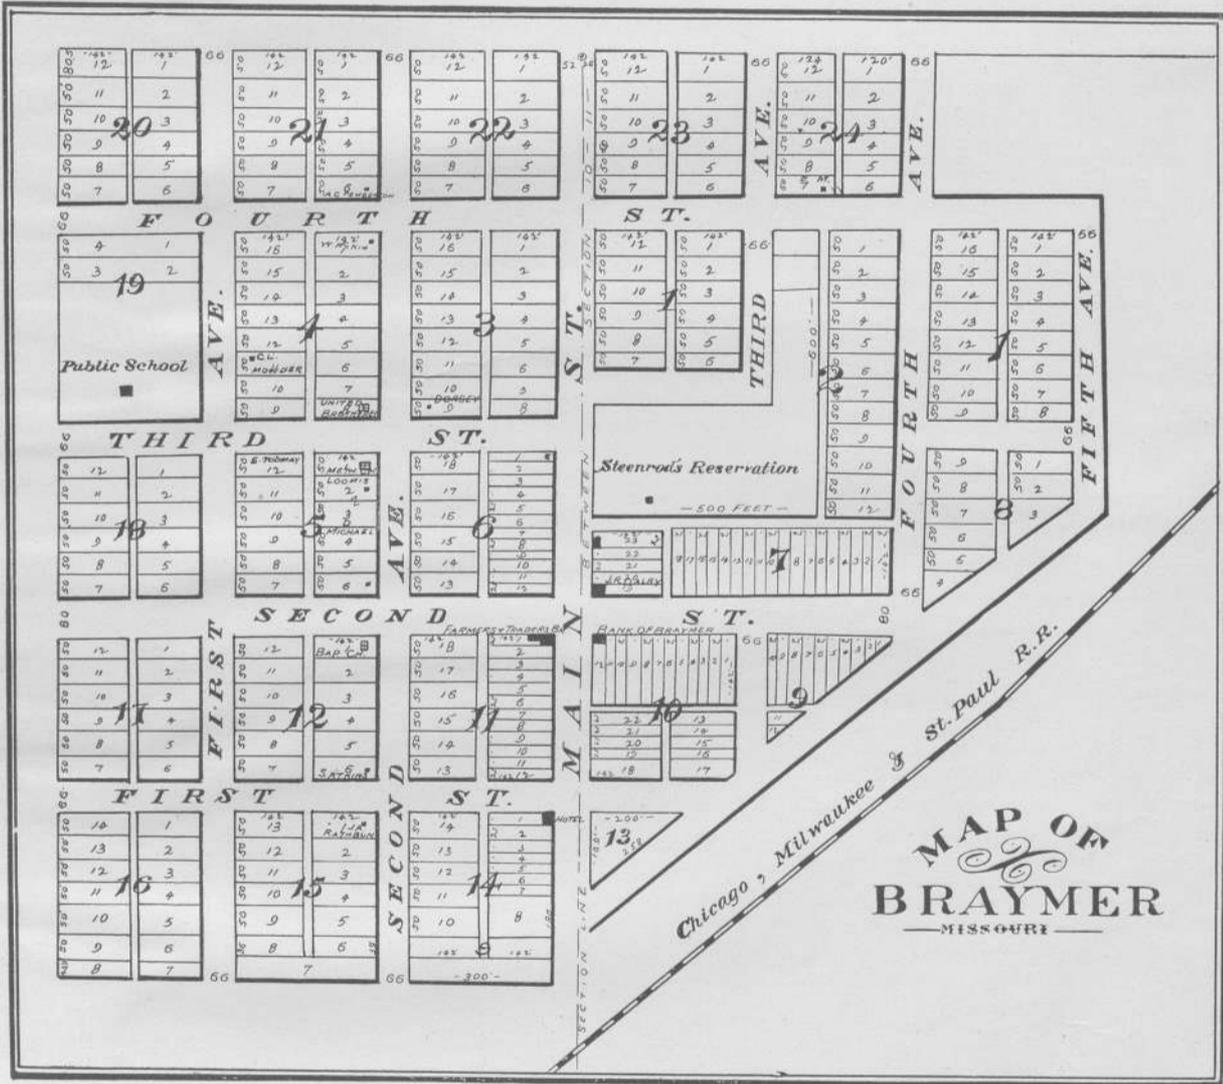

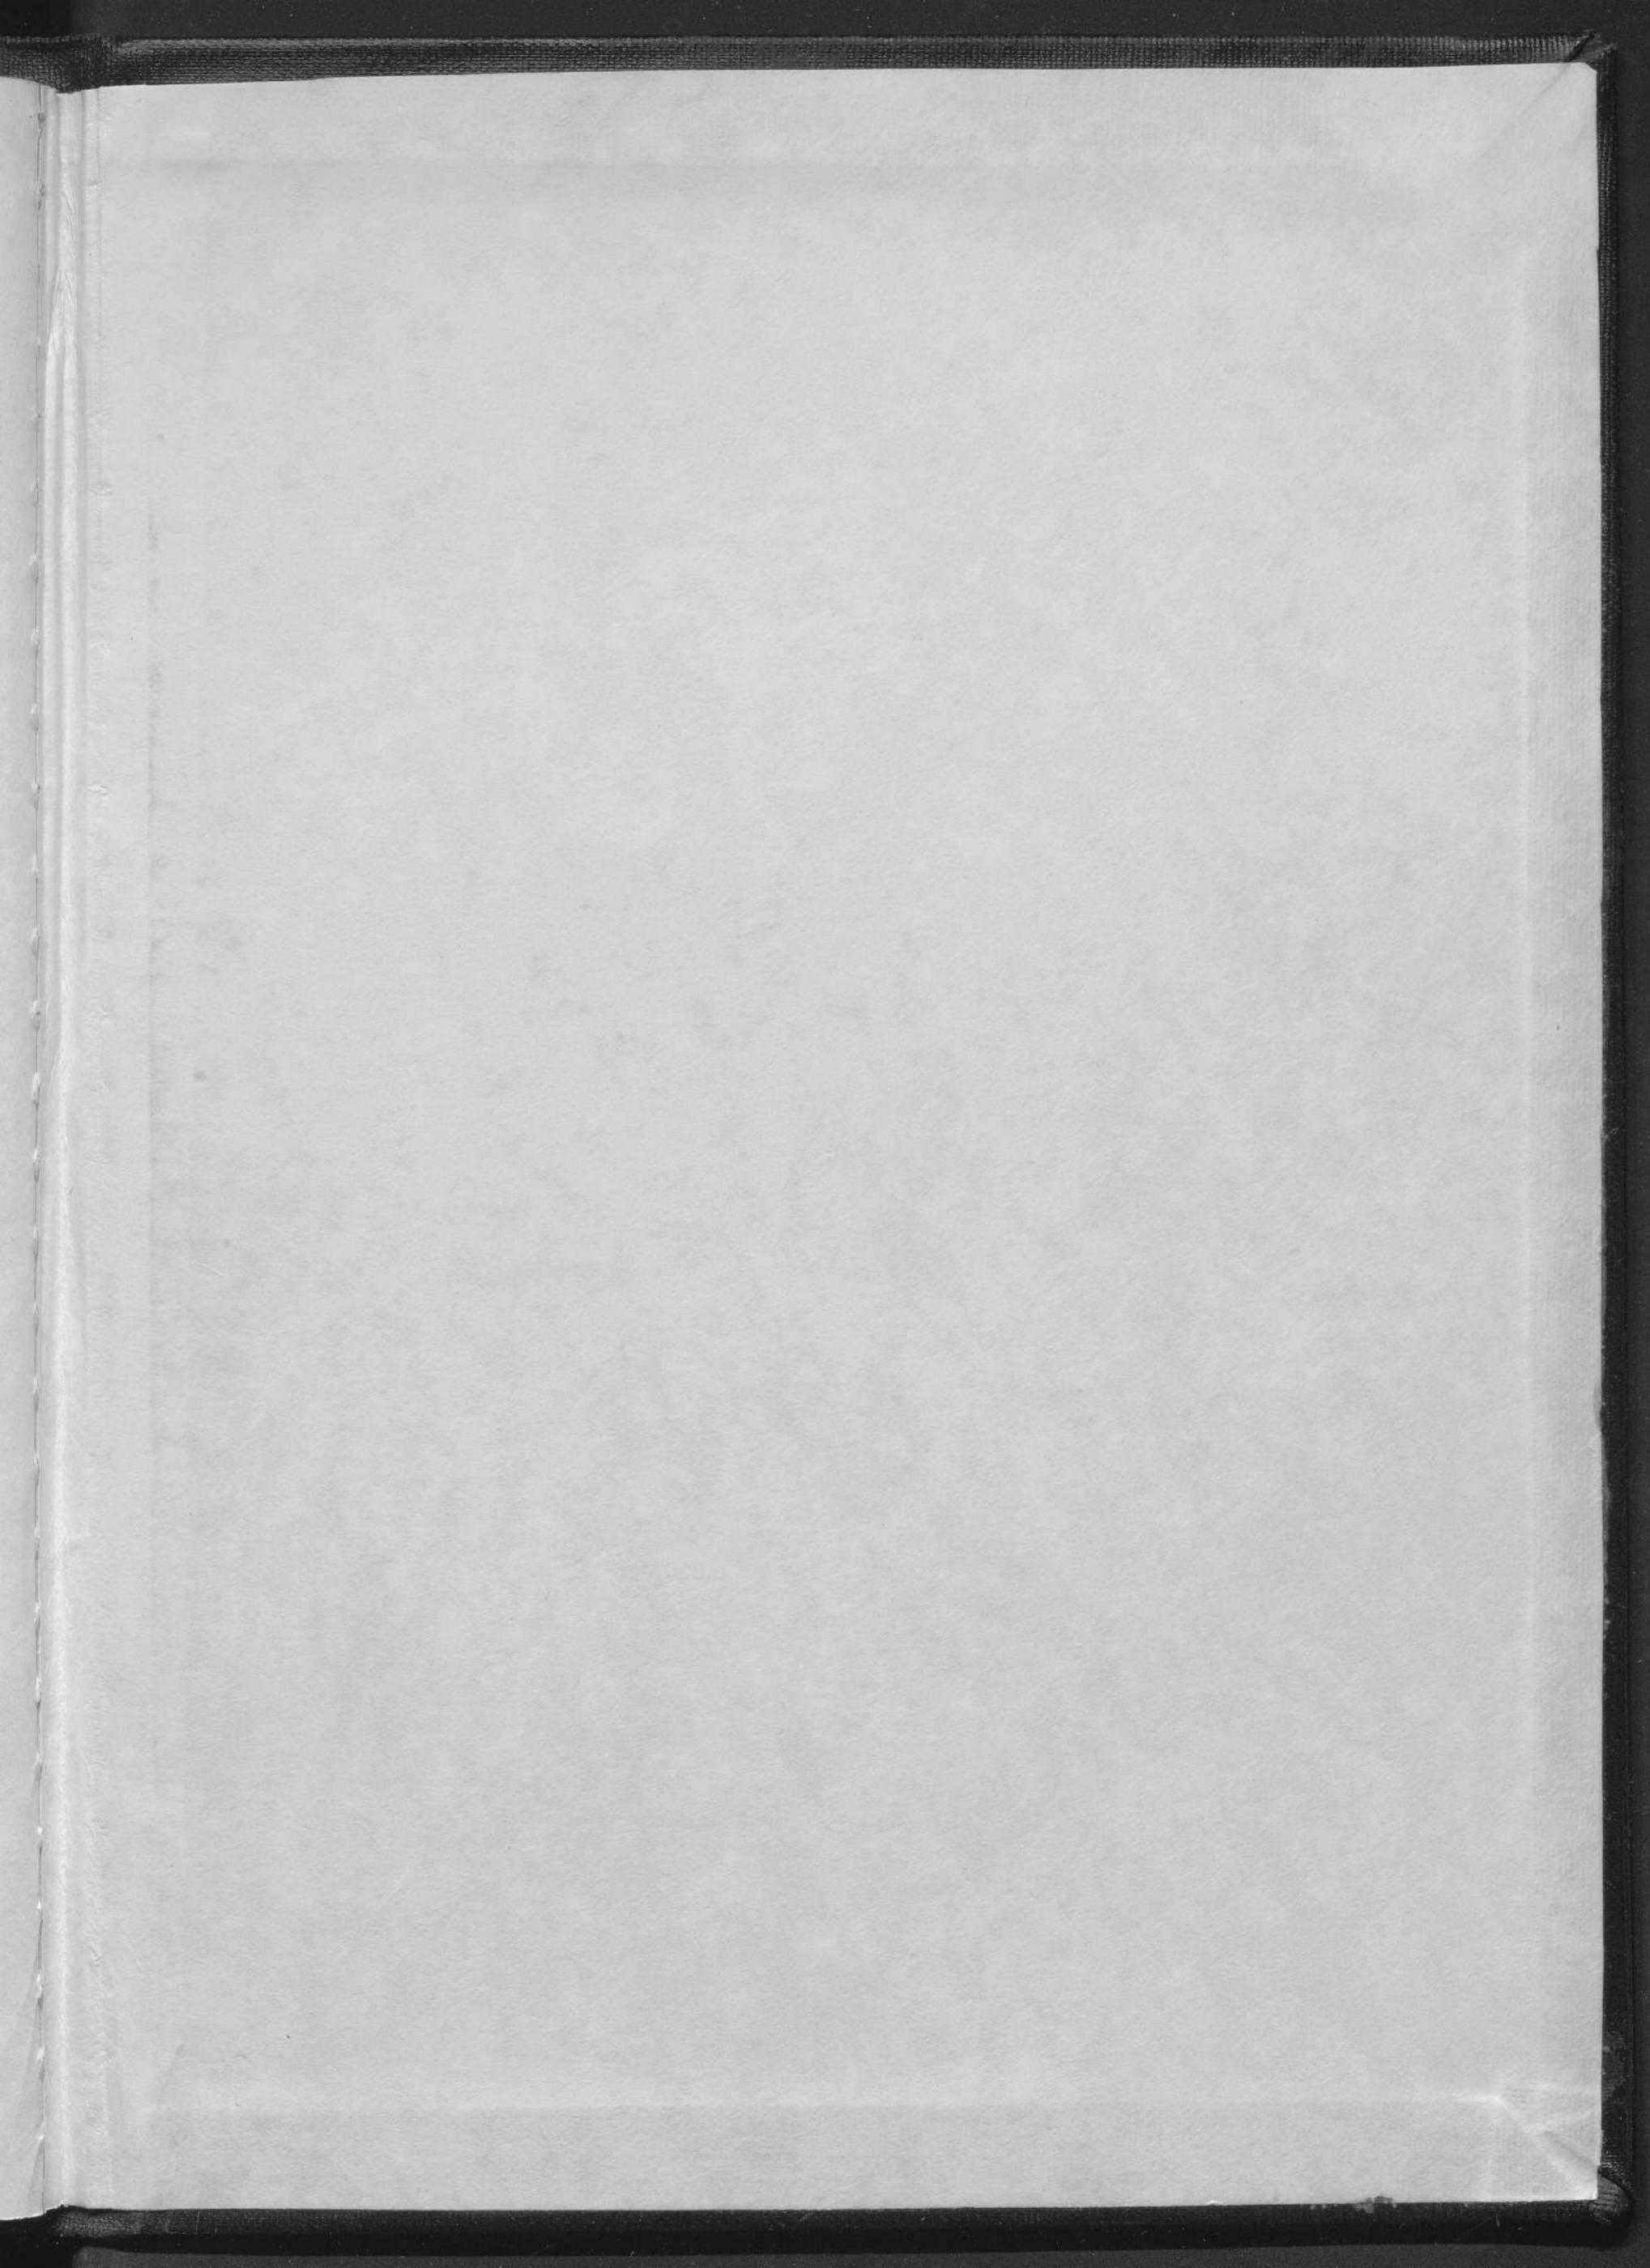

The image shows a page from a ledger or account book. The page is mostly blank, with a very faint, ghosted impression of a grid structure. The grid consists of several columns and rows. A prominent diagonal line runs from the bottom-left corner towards the top-right corner, crossing through the grid. The lines are extremely light and difficult to discern against the paper's texture. The overall appearance is that of a page that has been scanned or photographed with high contrast, making the original content nearly invisible.
