This book is dedicated to all those persons buried in unmarked graves so that they will always be remembered.

I would like to thank Brian Bickford, the caretaker at Oak Grove Cemetery, for all of his help and also for his devotion to the cemetery. He has made the cemetery a place to be proud of instead of the eyesore of years past.

The County Court was also kind enough to authorize metal markers for each section as I numbered them. The erection of these markers makes it easier to find a listed grave.

Oak Grove Cemetery, located two miles west of Charleston, on Highway 60 is the oldest of the large public cemeteries located in Mississippi County, Missouri. The history of the cemetery dates back to before 1863 and, until recent years, was under the management of the Oak Grove Circle which was responsible for the care and upkeep of the cemetery grounds.

From reading through old newspaper microfilm, the Oak Grove Circle frequently had fund raisers such as concerts, and often had clean-up days. At one point, cattle grazed on the grounds and were responsible for the breaking of several tombstones. In Feb. of 1886 a notice was printed in the paper stating that the Oak Grove Graveyard farm consisting of 30 acres was to be rented out.

In the early 1970's the County Court took control of the cemetery and has charge of it today. No formal records concerning burials, etc. were found and, to my knowledge, this is the first and only complete record of marked graves. There are, however, literally hundreds of unmarked graves which shall remain unknown forever.

The following is a reprint of an article found in the CHARLESTON COURIER, Friday, June 19th, 1863 edition and explains the beginning of Oak Grove Cemetery.

"Ye living men, come view the ground  
Where you must shortly lie."

Dr. Watts

It is known to most of the citizens in the vicinity of the Prairie, that at the sale of the swamp lands, a purchase was made of forty acres, about a mile back of Mr. James Smith's, lying immediately on both the Railroad and Long Prairie road, for the purpose of a public burying ground.

Commissioners were appointed to lay off a portion of the ground into lots, and pledges were made by a sufficient number of citizens to purchase lots enough to pay for the whole forty acres, and that it should be decided and dedicated for that purpose.

Circumstances have so happened that the lots have not been laid off as yet, although a large number of persons have been buried there, without much regard to place or position.

At the last term of the County Court, James Smith, A.M. Bedford, and C.C. Kalfur were selected as Commissioners to lay out the lots, who meet on the ground for that purpose on Saturday of next week (20th) and all persons who feel an interest in the matter, or who wish burial lots in the Cemetery, are requested by the Commissioners to meet them at that time, and assist in the matter.

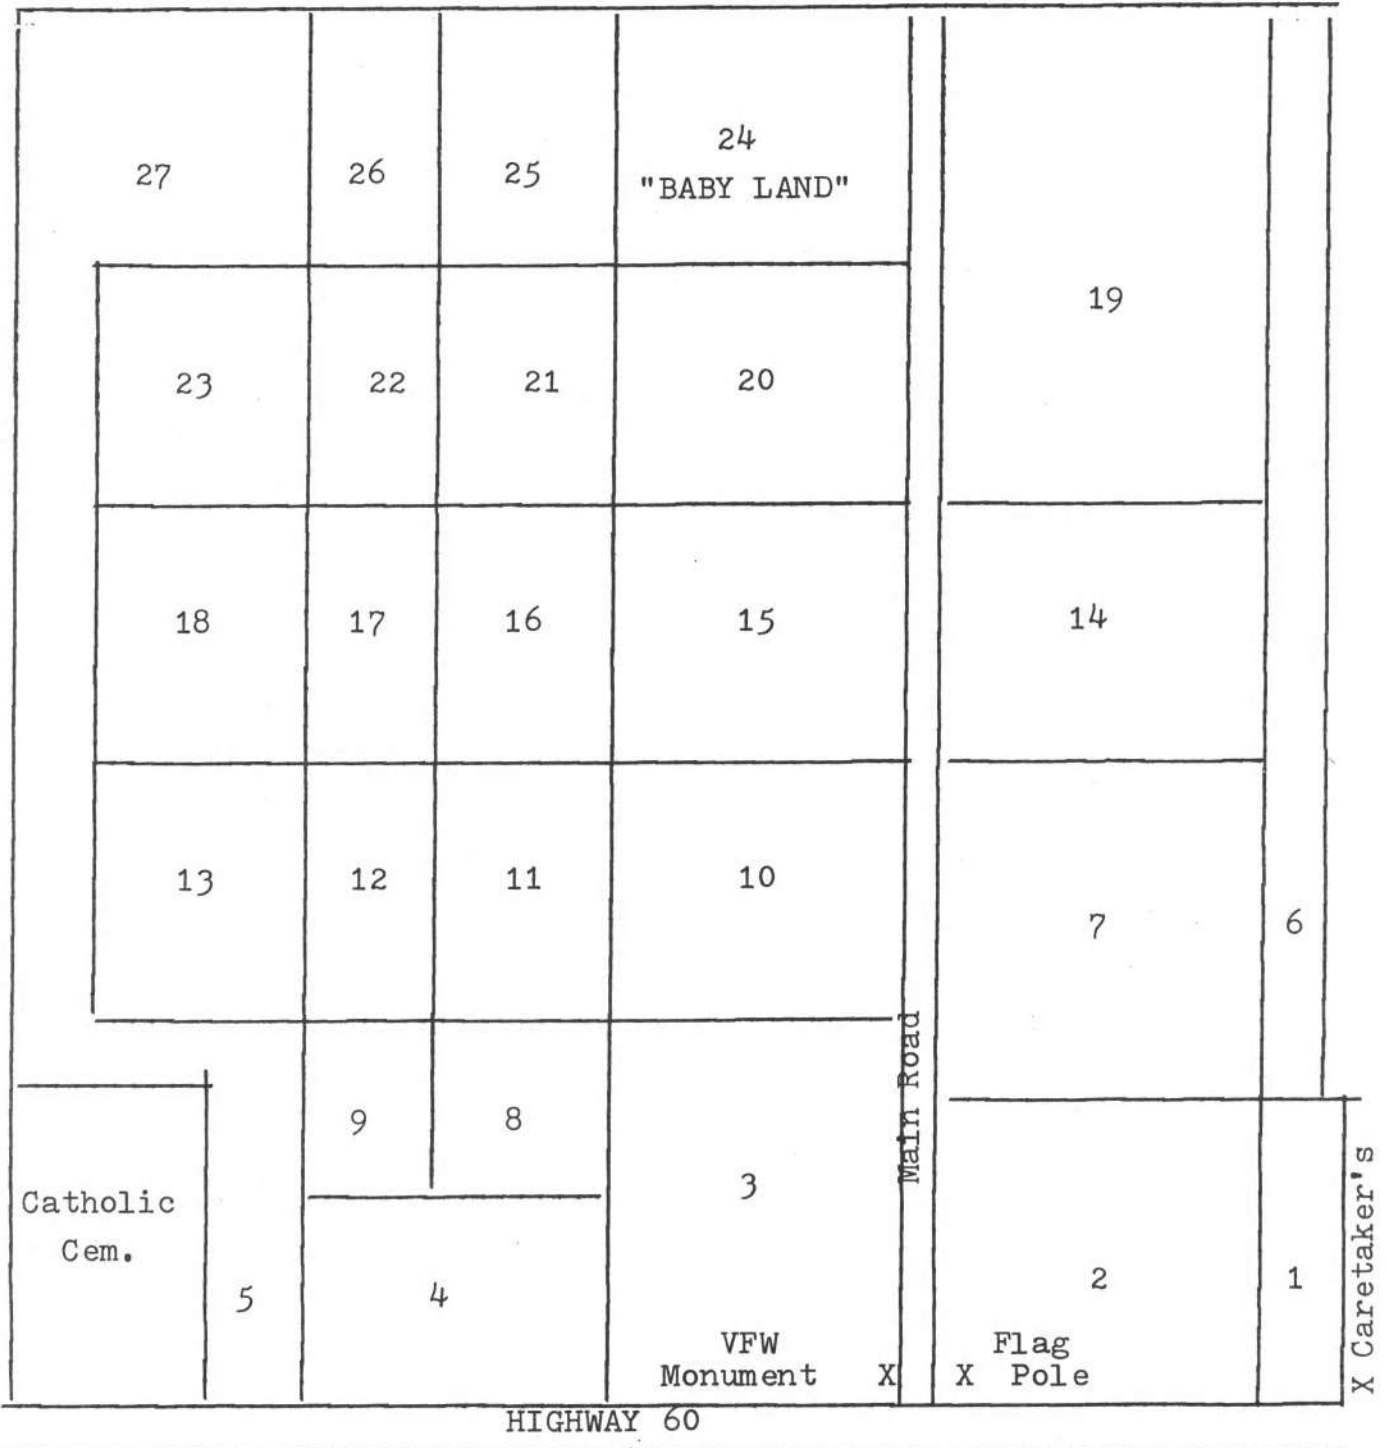

As it is a work exclusively belonging to the people of this vicinity, it is expected that they will attend to it without fail.

As soon as sufficient lots are disposed of to pay for the land, a deed will be made vesting the title in the people for burial purposes, with a sufficient amount specially reserved for the public, or, as commonly known, a Potter's Field.

Date compiled: July 1980-May 1981

As with all task of such major undertaking, there are bound to be mistakes. For these I apologize.

Newspapers provided an additional list of persons supposedly buried in Oak Grove Cemetery. I have no proof other than that this fact was mentioned in the death notice. Since it would be an impossible task to read all of the newspaper microfilm, I have included only those which I found in newspapers for 1858-1906 and a few for 1935-36. (These are listed alphabetically and are not included in the index.)
